

Pronouns and Transgender Patients

OBJECTIVES:

- Interpreters will be able to demonstrate new manners to communicate respectfully with transgender patients.
- Interpreters will easily find the correct pronoun for each person at all times even when the patient is not in the same room.
- Interpreters will be aware of the reason of Gender dysphoria.
- The interpreter will be able to differentiate the names of the hormones used in the treatment of transgender patients.
- The interpreter will acquire a wide range of terminology to easily use in each encounter.

TARGET AUDIENCE:

Medical translators and interpreters.

DESCRIPTION:

Have you ever interpreted for a Transgender patient and felt out of place because you are not familiar with their treatment? Did you find doctor's terminology totally different than what you are used to?

Dr. Haylee Veazey will make you feel at ease, she will provide history and common terminology frequently encountered when interpreting with transgender patients. She will also talk about all the services provided for transgender patients and what is available in the Twin Cities.

PRESENTER: HAYLEE VEAZEY, MD

Hennepin HealthCare - Adult Gender & Sexual Health, Emergency Medicine, Internal Medicine

Dr. Veazey's niche is LGBTQ+ healthcare. She is the Medical Director of the Adult Gender and Sexual Health clinic. She has developed expertise in hormone replacement therapy for transgender patients and has developed a curriculum for training providers to do the same. She specializes in Emergency and Internal Medicine.
